Subject: Sequence Search for Serial No. 10/014,774 - 10 consecutive nucleotides
Importance: High

Can you perform the following sequence search listed below.

The application is Serial No. 10/014,774.

SEQ ID NO: 1 is 1036 nucleotides in length

1. Please search for 10-1036 consecutive nucleotides of SEQ ID NO: 1 against the commercial, PGPub, Issued, and Pending nucleotide databases, such that there are no unmatched nucleotides on either side of any matching hit.

Please save on computer disks and save the pending database results on a separate disk.

Thank you very much.
